Atelier Le Traon

Private Weaver – Paris

Mathieu Le Traon created his hand weaving and textile design atelier in 2019, driven by the desire to bring back to luxury textile a personal and meaningful dimension – one that only dedicated craftsmanship can provide.

Mathieu creates and weaves luxury, single-edition textiles carrying a secret poetry and endowed with a soul of their very own, that the weaver's hand has infused with a unique vibration and spirit.

Inspired by stories, landscapes, literature and music, Mathieu Le Traon's handwoven, single-edition creations explore the poetic and sensory potential of exceptional animal fibers such as cashmere, vicuña, alpaca, fine merino wool and curated rare wools.

His work is purchased and exhibited in North America and Europe. It has been recognized by the Young Talents 2020 Award from the Paris Region Chamber of Crafts. Mathieu was also a finalist of the 2021 Grand Prix de la Création of the City of Paris, and selected as one of the artists invited to revisit a piece of furniture for the Mobilier national in 2022.
